

## **New Training Video on Advanced Searching of GPO's Federal Digital System**

A new training video on Advanced Searching of GPO's Federal Digital System (FDsys) is now available.

The video focuses on utilizing the FDsys Advanced Search function, using metadata to return precise results, and ways to further improve search results. The video is available here on the [omepage](#) of FDLP's beta Web site and on the [Learn About FDsys page on gpo.gov](#).

Please note options for closed captioning, enlarging the video, and volume control from the menu in the bottom right-hand corner of the video screen.

All are encouraged to view and share this FDsys tutorial. Stay tuned for upcoming announcements of future training modules.
